

PRESIDENT'S MESSAGE

Dear Members,

I wish you had a wonderful summer!

As many of you know, in compliance with the new local regulation, under the supervision of the government agency, we have been working with our legal counsel to establish AIA Shanghai as a non-governmental organization (NGO).

We are moving as quickly as we can to prepare the paperwork required to initiate the approval process. Please be informed that during the NGO registration and formation, we may not be able to organize any public activities or events. We will keep you apprised about the status of NGO registration process.

Meanwhile, we expect to continue our collaboration with other organizations, such as the Architectural Society of Shanghai China (ASSC) and to provide any support for our members when needed. We appreciate your understanding and patience. Do reach out to us if you have any questions regarding your Continuing Education Services Learning Units (CES LUs). Via our website, you may find CES LU resources, including webinars on which we have collaborated with other AIA chapters as well as other off-line local events.

Regionally, AIA National has notified us that three applications for International Sections are approved: AIA South Korea, AIA Southeast Asia, and AIA Taipei. We're excited to have more sister chapters in Asia, and look forward to cohosting future pan-Asia events with them.

Last but not least, we are grateful for the support from our members. Our chapter's annual officer election is scheduled for Q4. Please contact me if you are interested in partaking in any committees or leading any new initiatives for our chapter.

Sincerely yours,

Anderson Chider Hsieh Intl. Assoc. AIA President AIA Shanghai | Beijing

EVENT PARTICIPATION IN Q3

We stayed busy during this quarter by supporting and taking part in multiple events such as the Shanghai Curtain Wall Shared Design Festival on July 15th, AIA Urban Renewal & Low Carbon Development Workshop (U.S. Embassy Beijing) on July 26th, ZAK World of Façades Conference (Shanghai) on July 27th, World of Concrete Asia (WOCA) the Surface Design Event on August 10th, and Asia

Conference on Design and Application of Architectural Façade (Shanghai) on September 19th.

We stayed focused on topics including innovation in building materials for environmental quality and fighting climate change.

We also attended our sponsor iGuzzini's social event in August. ●
